STANDARD BIFOLD DOORS

Aluminium bifold doors create a visually stunning addition to your home and can add huge value.

Class-leading design features set the PR10 Bifold Door aside from the competition. Thermal performance and slim profile sections to minimise the visible framework and maximise the glass area, is key to their design.

Engineering grade hardware, allows for silky smooth opening and closing operation, without having to pay a premium price.

What's more, all our doors come with a **10-year manufacturers' guarantee** for your complete peace of mind.

Why choose Aluminium?

Aluminium is extremely durable and more **hard-wearing** than other materials. You'll be able to enjoy your aluminium doors for not only years but decades to come as they're incredibly resistant to the elements.

It is also an incredibly strong material, therefore providing a **high level of security**.

Aluminium doors are among the best-insulated on the market, thanks to advanced **thermal break technology**, which prevents cold transfer.

They require **very little maintenance** to ensure optimal performance and to keep them looking good as new.

SIGHTLINES

Cills & Thresholds

All standard doors come with a cill , 80mm wide with 18mm lip. Cill installation is optional and does not affect the doors performance. Our threshold provides the utmost protection whilst still looking sleek. Flush fitting options are available - see within the installation guide.

Hardware

Elevate your living experience with Prime Aluminium's premium hardware. Our smooth opening and closing mechanism ensures convenience and reliability, backed by a 10-year warranty for ultimate peace of mind.

Thermal Efficiency

The PR10 system can achieve **part L compliant** U-values as low as 1.4 W/m²K.

Low Maintenance

Our **low-maintenance** aluminium doors are strong, durable and highly **corrosion-resistant**. Unlike timber, they don't need painting or staining to keep them **weather-proof**, and they won't rust or corrode. They will also never rot, peel or flake.

Maximum Vision

The PR10 Door System gives one of the **largest sash sizes** available, with up to 1000mm width and 3000mm height per pane. Paired with **super slim sightlines**, you'll get the best uninterrupted views.
